

# Canadian Soil Information Service

## [National Soil DataBase \(NSDB\)](#)

The NSDB is the national archive for soil and land resource information in Canada. Spatial datasets provide information on ecological groupings, soil properties and distribution.

## [Soil Interpretations](#)

Land use management and planning tools developed to assist in land assessment and decision making.

## [Soil Survey Reports and Printed Maps](#)

Soil survey reports and maps for Canada published at scales more detailed than 1:1 million.

## [Reference Publications and Manuals](#)

Documents describing soil survey methodology, soil and landscape classification, laboratory analyses, and GIS procedures
